PROFILE

IT generalist and operations-minded systems builder with a cybersecurity specialization and a leadership track record spanning institutional-scale deployments and student governance. Sole developer of SAO-IS — a production Laravel 11 + React/Vite DMS deployed at Mapúa MCL's Student Affairs Office. Hands-on project output spans IoT fog computing systems, native Android analytics applications, and embedded hardware. Proven ability to take systems from concept to deployment in real institutional environments, working independently under production constraints.

CORE COMPETENCIES

Systems Building & Deployment

- Sole developer and architect of SAO-IS — a production Laravel 11 + React/Vite Document Management System deployed on an Ubuntu server at the Mapúa MCL Student Affairs Office, serving real institutional users with zero external contractor support
- Integrated a locally-hosted LLM (Ollama) into SAO-IS for on-premise AI-assisted document processing — designed the WSL2-to-Windows-host and bare metal networking configuration without external API dependency
- Deployed StudentAnalytics backend to Azure App Service with a GitHub Actions CI/CD pipeline
- Built and configured a Tailscale + x11vnc secure remote access solution for the production Linux server, enabling off-site administration

IoT & Embedded Systems Development

- Designed HopFog — an IoT fog computing framework for distributed no-internet communication — implementing a multi-node edge architecture with AES-128 CTR encrypted inter-node data transmission
- Built Smart Posture Coach: a dual-microcontroller master-slave IoT system (ESP32-CAM + WEMOS D1 R1) with real-time computer vision posture scoring, live MJPEG stream, and a web dashboard served directly from the ESP32-CAM
- Experienced with FreeRTOS task management, REST API communication between embedded nodes, and OV2640 camera integration for real-time image processing

Operational Automation & Tooling

- Developed Python automation script for Shifting Request report generation from Microsoft Forms survey exports — outputs Mapúa MCL-branded Excel workbooks with summary tables and institutional charts
- Built Power Query M pipelines to auto-aggregate SharePoint room booking calendars into a live room availability checker
- Implemented an Office Scripts + Power Automate daily scheduled flow for the disciplinary case masterlist — includes a self-guarding flag cell to prevent duplicate daily runs and a SUMPRODUCT dashboard
- Automated student email lookup from Mapúa MCL Excel exports via Power Automate, including name-format transformation formulas to match M365 display name conventions
- VBScripts for Excel to automate various functions and data analysis on offline files for report generation

Cybersecurity & Networking

- CCNA-certified: proficient in OSI model, IP subnetting, routing protocols, VLAN configuration, and network diagnostics
- CompTIA Tech+-certified with validated foundational IT support and infrastructure knowledge
- Applied AES-128 CTR mode encryption to secure data transmission across distributed IoT/fog nodes in the HopFog capstone project — cybersecurity principles applied in a real embedded systems context

Digital Transformation & Technology Adoption

- Established and led the Digital Transformation Committee at Mapúa MCL Supreme Student Council — built the unit from scratch, defining its structure, goals, and implementation roadmap
- Supervised institution-wide deployment of Anthology Engage across 30+ student organizations — managed onboarding, platform compliance, and faculty coordination; the rollout was the first of its kind at Mapúa MCL
- Designed and executed workflow digitalization projects replacing manual administrative processes with scalable digital systems across student governance operations

Leadership & Organizational Governance

- Served as SSC President — the highest student governance position at Mapúa MCL — directing council operations, supervising committee officers, and managing 5+ campus-wide events with up to 1,000+ attendees
- Recruited, trained, and managed a 20-member events team as Events Staff Manager, overseeing all staffing, logistics, accountability, and post-event reporting
- Facilitated formal communication between the student body and institutional administrators, serving as primary policy and welfare liaison for 1,000+ students
- Represented the College of Computer and Information Sciences in institution-wide student governance as CCIS SSC Representative

EDUCATION

Mapúa Malayan Colleges Laguna <i>Bachelor of Science Information Technology, Major in Cybersecurity</i> - Dean's List Award – AY 2022, AY 2025 - Relevant coursework: Networking, Cybersecurity Fundamentals, Operating Systems, Cloud Computing, Information Assurance, Web Systems and Technologies	Cabuyao City, Laguna, Philippines Aug. 2022 – Nov. 2026
Malayan Colleges Laguna <i>Senior High School – STEM – Mathematics</i> - E.T. Yuchengco Institutional Scholar - Graduated With High Honors	Cabuyao City, Laguna, Philippines Aug. 2020 – Aug. 2022

TECHNICAL SKILLS

Languages: PHP, JavaScript / TypeScript, Python, Kotlin, Java, C / C++, C#
Frameworks: Laravel 11, React (Vite), Inertia.js, Android SDK, Visual Studio
Databases: MySQL / MariaDB, Oracle DB, Microsoft SQL Server
Infrastructure: Linux (Ubuntu / WSL2), Tailscale, Azure App Service, GitHub Actions, Google Cloud
Embedded / IoT: ESP32, WEMOS D1 R1, FreeRTOS, OV2640, Arduino IDE, PlatformIO
Automation: Power Query M, Office Scripts, VBScripts, Power Automate, SharePoint, Python scripting
Networking: CCNA — OSI model, subnetting, routing protocols, diagnostics

CERTIFICATIONS & CREDENTIALS

CyberSocPH Membership <i>Cybersecurity Society of the Philippines Inc. (CyberSocPH)</i>	Jul. 2025
CompTIA Tech+ <i>Computing Technology Industry Association (CompTIA)</i>	Dec. 2025
Google Cloud Computing Foundation <i>Google Cloud</i>	Apr. 2025
CCNA: Introduction to Networks <i>Cisco Networking Academy</i>	Feb. 2025

AWARDS & RECOGNITIONS

Dean's List Award <i>Mapúa Malayan Colleges Laguna</i>	AY 2022, AY 2025
E.T. Yuchengco Institutional Scholar (SHS) <i>Malayan Colleges Laguna</i>	Aug. 2020 – Aug. 2022
Graduated with High Honors (SHS) <i>Malayan Colleges Laguna</i>	Aug. 2022
