PROFILE

IT generalist and operations-minded systems builder with a cybersecurity specialization and a demonstrated leadership track record. Sole developer of SAO-IS — a production Laravel 11 + React/Vite DMS deployed at Mapúa MCL's Student Affairs Office. Project experience spans IoT fog computing (HopFog), native Android analytics (StudentAnalytics), and embedded IoT systems. CompTIA Tech+, Google Cloud, and CCNA-certified.

EDUCATION

Mapúa Malayan Colleges Laguna <i>BS Information Technology, Major in Cybersecurity</i> Dean's List Award – AY 2022, AY 2025	Cabuyao City, Laguna, Philippines Aug. 2022 – Nov. 2026
Malayan Colleges Laguna <i>Senior High School – STEM – Mathematics</i> - E.T. Yuchengco Institutional Scholar - Graduated With High Honors	Cabuyao City, Laguna, Philippines Aug. 2020 – Aug. 2022

TECHNICAL EXPERIENCE

Mapúa Malayan Colleges Laguna Student Affairs Office (OJT) <i>System Developer (Sole Developer)</i> - Sole developer of SAO-IS — a full-stack web-based Document Management System built with Laravel 11 (PHP) + React/Vite (TypeScript), deployed on a bare metal Ubuntu server within the institution's infrastructure - Designed and implemented core modules: document routing and tracking, student records management, disciplinary case workflow, and multi-role user access control - Integrated Ollama (local LLM) for on-premises AI-assisted document processing via WSL2-to-Windows-host networking and bare metal implementation — no external API dependency - Built Tailscale + x11vnc remote access setup for secure off-site system administration of the production Linux server - Developer of Student Advising Report Generator – a native Windows application built with C#/.NET Framework (WPF) for offline report generation from i-ASCEND data.	Cabuyao City, Laguna, Philippines May 2026 – Jul. 2026
---	---

PROJECTS

HopFog – IEEE 802.15.4 Fog Computing Communication System <i>XBee, ESP32, C/C++, AES-128 CTR, Fog Computing Architecture</i> - Designed a distributed edge-computing framework for no-internet communication through a combination of Ad hoc Wi-Fi and 802.15.4 (Zigbee) connectivity - Secured all inter-node data transmission with AES-128 CTR mode encryption	Capstone Project Aug. 2025 – Jul. 2026
StudentAnalytics <i>Kotlin / Android Studio, PHP SOAP, Azure App Service, GitHub Actions CI/CD</i> Full-stack academic analytics system with four analytical modules (grade analysis, predictive modeling, scholarship eligibility) deployed to Azure via automated CI/CD	
Smart Posture & Ergonomics Coach <i>C/C++, ESP32-CAM, WEMOS D1 R1, FreeRTOS, REST API</i> Master-slave IoT system with real-time posture scoring via OV2640 computer vision; live MJPEG stream + web dashboard served from the ESP32-CAM	
Operational Automation Scripts <i>Python, Power Query M, Office Scripts, VBScript, Power Automate</i> - Python script automating institutional Shifting Request reports from Microsoft Forms survey exports into Mapúa MCL-branded Excel workbooks with COUNTIF-driven summary tables - Power Query M pipeline aggregating SharePoint room booking calendars into a live room availability checker for the IFO - Office Scripts + Power Automate daily flow for disciplinary case masterlist automation on SharePoint with self-guarding duplicate-run protection - VBScripts for Excel to automate various functions and data analysis on offline files for report generation	

LEADERSHIP

Mapúa MCL – Supreme Student Council	
President	Aug. 2024 – Aug. 2025
• Led institutional reforms and data-driven decision making on student concerns and related affairs • Pushed further the digitization of various student processes, streamlining and optimizing workflow for student organization and student councils	
Digital Transformation Director	Mar. 2024 – Aug. 2024
• Inaugural holder of the position, leading the wave of digitization and data-driven decision making in the Student Council • Led institution-wide rollout of Anthology Engage as Digital Transformation Director — platform deployment, org onboarding (30+ student orgs), workflow digitalization, and multi-department coordination • Concurrent position held alongside Events Staff Manager	
Events Staff Manager	Aug. 2023 – Aug. 2024
• Inaugural holder of the position, managing a 20+ member team in conducting campus-wide events and initiatives	

CERTIFICATIONS AND AFFILIATIONS

CyberSocPH Membership	Jul. 2025
<i>Cybersecurity Society of the Philippines Inc. (CyberSocPH)</i>	
CompTIA Tech+	Dec. 2025
<i>Computing Technology Industry Association (CompTIA)</i>	
Google Cloud Computing Foundation	Apr. 2025
<i>Google Cloud</i>	
CCNA: Introduction to Networks	Feb. 2025
<i>Cisco Networking Academy</i>	

TECHNICAL SKILLS

Languages: PHP, JavaScript/TypeScript, Python, Kotlin, Java, C/C++, C#	
Frameworks & Tools: Laravel 11, React/Vite, Android Studio, Git, Arduino IDE, VS Code	
Infrastructure: Linux (Ubuntu/WSL2), Tailscale, Azure App Service, Google Cloud, MySQL	
Networking: CCNA — OSI model, subnetting, routing protocols, diagnostics
